**Catalyst** is a free study companion for the new NYS Regents course, Physical Science: Chemistry: an interactive periodic table, calculators that **show every step**, and a study guide with test prep that follows the class, lesson by lesson. Install it once and it works like a regular app, **even with no internet**.

## What's inside

**Pt — Periodic Table**
Color by category or by trend. Tap any element for its 2-8-1 configuration, a Bohr diagram, charges and properties.

**Mo — Step-by-step calculators**
Molar mass, balancing, stoichiometry, gas laws, molarity, pH, sig figs, empirical formulas and heat.

**Rn — Study Guide & Test Prep**
Lessons that follow your class, quizzes that explain every answer, shuffled practice tests, and Regents-style clusters.

**Ag — Photo Tutor** COMING
Snap a homework problem and get a hint first, then the steps, then the answer.

## Install it in under a minute

Open **catalyst.beeransapps.com** on your device, then follow the steps for your device. Installing is free and needs no app store.

### Android
Chrome

1. Open the site in **Chrome**.
2. Tap the ⋮ menu (top right).
3. Tap **Install app** or **Add to Home screen**.
4. Tap **Install** to confirm.
5. Open Catalyst from your home screen.

### iPhone / iPad
Safari recommended

1. Open the site in **Safari**.
2. Tap the **Share** button (square with an arrow).
3. Scroll down and tap **Add to Home Screen**.
4. Tap **Add** (top right).
5. It opens full-screen, without the browser bars.

### Chromebook SCHOOL
Chrome

1. Open the site in **Chrome**.
2. Click the **install icon** at the right end of the address bar.
3. No icon? Open ⋮ → **Cast, save, and share** → **Install page as app**.
4. Click **Install**. Catalyst is added to your launcher and shelf.

### Windows / Mac
Chrome or Edge

1. Open the site in **Chrome** or **Edge**.
2. Click the **install icon** in the address bar.
3. In Edge you can also use ⋯ → **Apps** → **Install this site as an app**.
4. Catalyst opens in its own window, with a desktop or Start menu shortcut.

↻ **It updates itself.** New versions download in the background and appear the next time you open the app online. Everything except the future Photo Tutor works **offline**.
**iPhone / iPad:** if it looks out of date, close the app fully and reopen it. If that doesn't help, delete the icon and add it again from Safari.
